

Optima Enterprise

always the right choice for your employees

Optima Enterprise and Optima Services allow you to meet all of your company's mobile communication needs while always benefiting automatically from the best tariff for each individual employee, even if usage varies and cannot be estimated beforehand.

always get the best tariff for all your mobile communication needs

For medium and large companies, Optima Enterprise together with Optima Services offer a flexible solution that can be perfectly tailored to any needs. You will be able to fulfil all your employees' requirements whether in Switzerland or on trips abroad, while at the same time constantly improving your communication costs.

You benefit at any time

- from the best value tariffs for calls and SMS on all Swiss networks. The same tariff also applies to calls and SMS abroad (zones 1 to 3)
- from transferring mobile data (sending and receiving emails with or without attachments, downloading documents, completing research on the Internet, synchronising contacts and appointments)
- from the best value Options for calls and data transfer abroad

With Optima Enterprise, your employees can make calls within a specially defined group of your enterprise at any time and at the best value tariff. And for calls in Switzerland, as well as Europe and the USA, you benefit from a fixed tariff regardless of the network. By selecting the inclusive Company Option, calls between individual employees, regardless of whether they are made via a mobile phone or the fixed-line network, are free for the company.

peace of mind with Optima Services

With Optima Services, you no longer need to worry about how much you are paying for your mobile communication. You can be sure that all your employees will always benefit from the best tariff – for mobile data traffic, SMS or calls, in Switzerland and abroad, without having to commit to a specific volume beforehand. This simple solution guarantees the fleet manager optimum security, cost-efficiency and flexibility.

There is no need to estimate usage in advance; you are not tied to a fixed volume and you always benefit from the best tariff, even over short periods of time. During absences (e.g. holidays, military service or illness) no charges will be incurred for unused volumes.

call any Swiss fixed-line number for free

The Fix Flat Option ensures your employees can call any Swiss fixed-line number for free 24 hours a day, 7 days a week.

Fix Flat Option	
Call any Swiss fixed-line number for free	CHF 12.–/month/user

Only valid for all calls to Swiss fixed-line numbers, 24 hours a day. This excludes all 058, 0800, 0900, speed dial and premium rate numbers. Orange understands normal use to be a maximum of 3000 minutes per month. Calls that exceed this usage limit will be charged at the standard tariff for the Optima Enterprise subscription.

recommendation

- users with rather predictable usage levels can also choose from tailor-made packages for data traffic, SMS and roaming to suit their individual requirements: **Start, Plus or Max**
- by choosing **Office Team**, your company benefits from attractive fixed-line tariffs for calls to all national fixed-line and mobile numbers
