

Vaduz/Lausanne, 8 June 2005

Press release

Telecom FL and Orange partnership

In summer 2005, Telecom FL and Orange (Liechtenstein) AG, a subsidiary company of Orange Switzerland will join forces in offering telecommunication services to their Liechtenstein customers. The associated agreement was signed on 7 June 2005.

From summer 2005, Telecom FL and Orange (Liechtenstein) AG will be offering their Liechtenstein customers joint services in the mobile communications sector. Private customers and businesses will receive attractive offers based on the existing Orange network.

Patrick Gauch, Director of Telecom FL, says: "In order to be in a position to offer innovative services from one source, we must constantly branch out in new directions. Technologies and services in our industry are increasingly merging together, and the mobile business is playing an important role in this. Our aim is to offer our customers innovative and attractive services in this area as well. To do this, we have teamed up with Orange (Liechtenstein) AG, a strong and reliable partner, which has developed a highly efficient infrastructure in Liechtenstein."

Andreas S. Wetter, CEO of Orange Switzerland and VR President of Orange (Liechtenstein) AG, says: "Orange has been active in Liechtenstein since 2002 and offers its customers high-quality mobile solutions. Working together with Telecom FL allows Orange (Liechtenstein) AG to expand its presence on this market and provides customers with a range of all-in-one services."

Over the past few years, Telecom FL has established itself on Liechtenstein's market as a reliable one-stop service provider. True to its slogan "**Alles aus einer Hand**" (**One-stop shop**), the telecommunications company offers its private and business customers forward-looking products and services such as ADSL, landline and Internet services, and from summer 2005 it will continue to do so in conjunction with Orange mobile services.
