Orange now offering Internet Everywhere with PrePay

Orange is expanding its Internet Everywhere offer for mobile Internet access with a PrePay offer. Internet Everywhere PrePay offers simple, mobile access to the Internet without a monthly fee, for a favourable daily rate and with full cost control. With Internet Everywhere PrePay customers can enjoy unlimited use of the Internet for a flat rate of CHF 5.00 per day.

The Internet Everywhere PrePay package costs CHF 99.00 and includes:

- A Huawei E1552 USB modem for Internet connections of up to 3.6 Mbit/s
- A SIM card with a three-day free credit for Internet connections.

Internet Everywhere PrePay is the ideal solution for occasional mobile Internet access with a laptop. There is no monthly fee and with PrePay full cost control is guaranteed at all times.

The daily fee of CHF 5.00 is charged with the first Internet connection. Customers then have unlimited use of the Internet from midnight until midnight on the same day for that price.

Similarly to PrePay mobile phones, the Internet Everywhere PrePay credit can be topped up online under "My Account" on the Orange website, via the Recharge Hotline under phone number 0800 700 555 and at numerous other locations (SBB ticket vending machines, kiosks, Coop, Migros, post offices, etc.). For more information about topping up Orange PrePay, please go to www.orange.ch/recharge.

Internet Everywhere PrePay can be used on laptops running Windows XP, Vista and Windows 7 as well as on MacBooks running MacOS X (starting with version 10.4).

Note to editorial departments: A high-resolution image of the [Huawei E1552](#) USB modem can be downloaded [here](#).
